

Myers View Farm

Myers view farm has been dedicated to producing champion lambs and goats based on genetics for over 30 years. However we realize our success at producing champions falls into the hands of the youth and families who purchase our livestock. We realize that not all of our lambs and goats will garner purple banners, however we know that much more is gained when you raise a lamb or goat. "The Edge" Show Goat Camp is a program to promote agricultural youth education. We want youth to succeed in and out of the show-ring! Come and join "Team Myers"!

What to bring:

- ***Your Goat***

Myers View Farm Presents:

Show Goat Camp

**SHOWING YOUR
WAY
TO THE TOP!**

“The Edge” Show Goat Camp

Last year we hosted “The Edge” Lamb Camp, and what a success that was! There was a lot of interest from the participants and the suggestion was made to host a show goat camp as well. Time is limited for us, so we’ve decided to host a show goat camp this year and then start a rotation going back to lamb camp next year.

We have coached, trained and educated hundreds of youth, parents and educators over the last ten years about the finer details of raising and showing market lambs and market goats. Now that we are starting our own family of future showmen, our time constraints limits us to the time we can spend working with each of you on an individual basis. So we hope you will come join us for this goat camp so we have the opportunity to help you!

“The Edge” Show Goat Camp will focus primarily on showmanship. In addition, we will discuss feeding, general care and health management, fitting, and show day preparations.

Our goals are to share knowledge, information and experience we have gained from some of the countries finest goat producers, and to send you home with a toolbox full of skills to help prepare you to become a “Showman with the edge!”
